Abstract

It should be noted that YOUR PAPER for the Proceedings would be reproduced directly from the pages that you submit. Please follow these format directions carefully. Papers should be prepared in conformity with this instruction sheet. They should be sized as this page. You should use standard A4 paper size for your submission.

The main content should be in ten-point type and the Times New Roman font. Please refer to the sample document. You should limit your paper no more than 8 pages.

Format Instructions

Margin

The top and bottom margins for the text should be set at 2.54 centimeters. Those for left and right are 2 centimeters.

Title

The title of your paper should be in bold face, all caps, single-spaced, and centered across the top of both columns of the first page at the font size of 14.

Authors

The name of author(s), affiliation(s), department(s), city(s), country(s) and e-mail address should be centered with initial caps.

Headings

All headings should be in bold face. First-level headings should be centered at the font size of 12. Second-level subheadings should be set flush left with initial caps at font size of 10. Please do not use headings other than these two types. At least a one-line space should separate these headings from the preceding text.

Abstract

Introduce the paper with an abstract of approximately 200 words. Begin in the left column with centered heading "Abstract" set above the single-spaced abstract text. The abstract should properly describe the findings or arguments presented in the paper.

Body

Follow the abstract with a first-level heading that introduces the body of the paper. All paragraphs should begin flush left and right justified. Single-space the body of the paper.

Figures and Tables

Figures and tables should be placed as close as possible to where they are cited. First-level headings state the table or figure number and may be followed by second-level subheadings.

References

Bracketed numbers, i.e. [1] or [2, p.10] should be used in the body of the text to call references. If more than one reference is to be called at once, the following format should be used: [4] [6] [11, p.5].

Footnotes

The use of footnotes is discouraged.

Equations

All equations should be placed on separate lines and numbered consecutively, with the equation numbers placed within parentheses and aligned against the right margin.

$$Ti = f(x) \quad (1)$$

Appendices

The appendix should immediately follow the body of the paper and precede the references. If there is more than one appendix, number each consecutively.

References

If you have a bibliography, it should include only those references cited in the text of this paper. Therefore, it should be referred to as "References". References should be listed at the end of the paper. Entries should be numbered in the order of appearance and should be with the numbers placed in brackets.
